REC Commits ₹1.40 cr under CSR for 'Green Innovator Immersive Learning Lab' Project in Haryana Schools

REC Limited has committed financial assistance of ₹1.40 Crore under its Corporate Social Responsibility (CSR) initiative for implementation of the 'Green

Innovator Immersive Learning Lab' project in 10 Government Schools of Karnal District, Haryana. The project will be executed by I-Hub Foundation for Cobotics.

A Memorandum of Agreement (MoA) in this regard was signed on 14 May 2026 at REC Corporate Office, Gurugram, between Shri Arun Kumar Tyagi, Executive Director (CSR), REC Limited and Shri Ashutosh Dutt Sharma, CEO, IHFC (IIT Delhi).

The initiative aims to enhance experiential learning among school students through immersive technologies such as Augmented Reality (AR), Virtual Reality (VR), 3D learning tools, and STEM-based education modules. The project will also focus on developing future-ready skills including coding, robotics, innovation, and digital literacy among students studying in Government Schools. This collaboration reaffirms REC Limited's commitment towards strengthening the education ecosystem and empowering young minds with advanced technological exposure to prepare them for the evolving digital future.

State-owned REC Limited has committed ₹1.40 crore under its Corporate Social Responsibility (CSR) programme for the implementation of the 'Green Innovator Immersive Learning Lab' project in 10 government schools in Haryana's Karnal district.

The project will be implemented by I-Hub Foundation for Cobotics (IHFC), a technology innovation hub associated with Indian Institute of

Technology Delhi.

A Memorandum of Agreement (MoA) for the initiative was signed on May 14, 2026, at REC's corporate office

in Gurugram. The agreement was signed by Arun Kumar Tyagi, Executive Director (CSR), REC Limited, and Ashutosh Dutt Sharma, Chief

Executive Officer of IHFC.

The 'Green Innovator Immersive Learning Lab' project aims to strengthen experiential learning in government schools through the use of advanced educational technologies such as Augmented Reality (AR), Virtual Reality (VR), 3D learning tools, and STEM-based learning modules.

The initiative will also focus on equipping students with future-ready skills, including coding, robotics, innovation, and digital literacy, helping them adapt to

the rapidly evolving technological landscape.

According to REC Limited, the collaboration reflects the company's continued commitment to improving educational infrastructure and providing students in government schools with access to advanced technological learning environments.

The project is expected to create a more engaging and interactive educational experience for students while encouraging innovation and scientific thinking at the school level.
