REC Limited Signs MoU with ERDA to Strengthen Quality Assurance under RDSS

29 MAY 2026

Business Standard

REC LIMITED SIGNS MoU WITH ERDA TO STRENGTHEN QUALITY ASSURANCE UNDER RDSS

REC Limited signed a Memorandum of Understanding (MoU) with the Electrical Research and Development Association (ERDA) on Wednesday at SCOPE Complex, New Delhi, to strengthen quality testing and assurance mechanisms for materials deployed under the Revamped Distribution Sector Scheme (RDSS).

The MoU was signed by Shri Prabhat Kumar Singh, Executive Director (RDSS), REC Limited and Shri Brijesh Sachdeva, Head, ERDA North, in the presence of Shri Prince Dhawan, IAS, Executive Director (PMD), REC Limited and senior officials from both organisations.

Under the agreement, REC Limited and ERDA will collaborate on third-party quality testing of materials used in RDSS projects, technical support, capacity-building initiatives, and development of robust quality assurance frameworks. The collaboration aims to ensure that materials deployed in RDSS works conform to prescribed standards and contribute towards enhanced operational reliability and efficiency of the power distribution network across the country.

The partnership reinforces REC Limited's commitment towards supporting quality infrastructure development and strengthening the implementation of power sector reforms under RDSS.

REC Signs Pact With ERDA For Third Party Quality Testing

📅 04 Jun 2026 ⌚ 2 Min Read ✍️ CW Team

REC Limited (REC) has entered into an agreement with the Engineering Research and Development Association (ERDA) to institute third-party quality testing for equipment financed under its lending programmes. The arrangement is designed to introduce independent verification of product and installation standards across projects supported by the non-bank financial corporation that focuses on the power sector. Under the pact, accredited laboratories and technical teams affiliated with ERDA will undertake laboratory assessments and on-site inspections to verify conformity to applicable codes and specifications. \n\nThe parties intend the initiative to strengthen quality assurance, reduce instances of defective equipment and accelerate reliable commissioning of power assets financed through REC schemes. The programme aims to provide lenders and project developers with consistent test reports that can be integrated into disbursement conditions and acceptance protocols. Officials described the step as part of broader efforts to enhance project outcomes and to protect investment quality in the sector. \n\nThe
