REC Limited to Showcase Future-Ready AI Innovations and Host Strategic Global Sessions at India AI Impact Summit 2026

13 February 2026

INDIA AI SUMMIT

REC Ltd to host session on AI for Energy, launch P2P power trading

NEW DELHI: REC Ltd will play a key role at the India AI Impact Summit and Expo 2026 at Bharat Mandapam here. The power sector financier will host three thematic sessions with global partners and showcase advanced technologies at its pavilion.

REC's sessions will focus on the convergence of artificial intelligence, energy transition and infrastructure financing.

On February 16, in partnership with the International Solar Alliance (ISA), REC will host a discussion on the "Global Mission on AI for Energy", aimed at building AI-ready and citi-

zen-ready power systems. The session will highlight use cases to make clean electricity more affordable and inclusive.

On February 17, alongside the World Bank, REC will deliberate on the "AI-Energy-Finance Trifecta", examining the rise of energy-intensive data centres and the policy and financing frameworks needed to support AI-led energy optimisation and green, resilient infrastructure.

On February 18, in collaboration with FSR Global, REC will discuss the India Energy Stack (IES) as an interoperable digital public infrastructure for

the power sector, focusing on reducing integration costs and empowering consumers.

A key highlight will be the launch of a Peer-to-Peer (P2P) energy trading programme during the IES session. The initiative will enable consumers to directly buy and sell surplus solar power through secure digital protocols, promoting a decentralised energy ecosystem.

At its 140 sq m pavilion in Hall 4, REC will showcase AI-driven solutions to enhance grid efficiency, improve utility performance and support India's transition to a smarter, greener energy future.

THE FREE PRESS JOURNAL

REC to Showcase Future-Ready AI Innovations and Host Strategic Global Sessions at India AI Impact Summit 2026

REC Limited, a Maharatna Central Public Sector Enterprise under the Ministry of Power, is set to play a pivotal role at the upcoming

India AI Impact Summit and Expo 2026 at Bharat Mandapam, New Delhi. As a leader in power sector financing and digital transformation, REC will host three high-level thematic sessions in collaboration with global partners and showcase cutting-edge technology at its dedicated pavilion.

Driving Global Discourse: Three Strategic Sessions
REC is convening three distinct sessions to address the intersection of artificial intelligence, energy transition, and infrastructure financing:

● **Global Mission on AI for Energy (February 16 – 16:30 to 17:25 hrs, L2 Audi 1):** Partnering with the International Solar Alliance (ISA), this session focuses on building "AI-ready" and "citizen-ready" power systems. It aims to align leadership on high-impact use cases that make clean electricity more affordable and inclusive.

● **The AI-Energy-Finance Trifecta (February 17 – 10:30 to 11:25 hrs, Room no 10):** In collaboration with the World Bank, REC will examine the rapid expansion of energy-intensive data centers. The discussion will focus on the policy and financing foundations needed to unlock AI-driven energy optimization and resilient, green data-center development in India.

● **India Energy Stack (IES) and the AI-Ready Power Sector (February 18 – 11:30 to 12:25, West wing room 4 A):** Partnering with FSR Global, this session explores the India Energy Stack as a common, interoperable digital layer for the power sector. The discussion will center on how this digital public infrastructure can lower integration costs and enable a shift from "energy access" to "energy agency" for consumers.

Empowering Consumers: Launch of Peer-to-Peer (P2P) Energy Trading: A major highlight of the summit will be the launch of a Peer-to-Peer (P2P) energy trading program during the India Energy Stack session. This initiative is designed to transform consumers from passive recipients of electricity into active market participants. By leveraging secure, interoperable digital protocols, P2P trading will allow neighbors to buy and sell surplus solar energy directly among themselves, fostering a decentralized energy ecosystem and providing new monetization opportunities for households and small businesses.

A Hub of Innovation: The REC Pavilion
REC Limited will demonstrate its commitment to a digital-first energy landscape at its 140 sq m pavilion located at First Floor, Hall 4 (4F.19). Visitors can explore various AI-driven solutions designed to enhance grid efficiency, improve utility performance, and support India's transition toward a smarter, greener energy future.

Through these initiatives, REC Limited continues to lead the charge in integrating advanced technology with robust infrastructure to power a sustainable and digitally empowered India.

आरईसी लिमिटेड इंडिया एआई इम्पैक्ट समिट 2026 में भविष्य के लिए तैयार

वैभव न्यूज़ ■ नई दिल्ली

आरईसी लिमिटेड, विद्युत मंत्रालय के तहत एक महारत्न सेंट्रल पब्लिक सेक्टर एंटरप्राइज है, नई दिल्ली के भारत मंडपम में होने वाले इंडिया एआई इम्पैक्ट समिट और एक्सपो 2026 में अहम भूमिका निभाने के लिए तैयार है। पावर सेक्टर फाइनेंसिंग और डिजिटल ट्रांसफॉर्मेशन में लीडर होने के नाते, आरईसी ग्लोबल पार्टनर्स के साथ मिलकर तीन हाई-लेवल थीमैटिक सेशन होस्ट करेगा और अपने डिजिटल पवेलियन में कटिंग-एज टेक्नोलॉजी दिखाएगा। आरईसी आर्टिफिशियल इंटेलिजेंस, एनर्जी ट्रांजिशन और इन्फ्रास्ट्रक्चर फाइनेंसिंग के मेल पर बात करने के लिए तीन अलग-अलग सेशन बुला रहा है एनर्जी के लिए एआई पर ग्लोबल मिशन इंटरनेशनल सोलर अलायंस के साथ पार्टनरशिप में, यह सेशन एआई-रेडी और सिटिजन-रेडी पावर सिस्टम बनाने पर फोकस करता है। इसका मकसद लीडरशिप को हाई-इम्पैक्ट यूज केस पर एक साथ लाना है, जिससे क्लीन बिजली ज्यादा सस्ती और सबको साथ लेकर चलने वाली बन सके। एआई - एनर्जी-फाइनेंस ट्राइफेक्टा वर्ल्ड बैंक के साथ मिलकर, आरईसी एनर्जी-

इंटेलिजेंट डेटा सेंटर्स के तेजी से विस्तार की जांच करेगा। चर्चा भारत में एआई-ड्रिवन एनर्जी ऑप्टिमाइजेशन और मजबूत, ग्रीन डेटा-सेंटर डेवलपमेंट को अनलॉक करने के लिए ज़रूरी पॉलिसी और फाइनेंसिंग फाउंडेशन पर फोकस करेगी। इंडिया एनर्जी स्टैक और एआई-रेडी पावर सेक्टर एफएसआर ग्लोबल के साथ पार्टनरशिप में, यह सेशन पावर सेक्टर के लिए एक कॉमन, इंटरऑपरेबल डिजिटल लेयर के तौर पर इंडिया एनर्जी स्टैक को एक्सप्लोर करता है। चर्चा इस बात पर सेंटर होगी कि यह डिजिटल पब्लिक इन्फ्रास्ट्रक्चर इंटीग्रेशन कॉस्ट को कैसे कम कर सकता है और कंज्यूमर्स के लिए एनर्जी एक्सेस से एनर्जी एजेंसी में बदलाव को कैसे

इनेबल कर सकता है। कंज्यूमर्स को मजबूत बनाना पीयर-टू-पीयर एनर्जी ट्रेडिंग का लॉन्च। इस समिट का एक बड़ा हाईलाइट इंडिया एनर्जी स्टैक सेशन के दौरान पीयर-टू-पीयर एनर्जी ट्रेडिंग प्रोग्राम का लॉन्च होगा। यह इनिशिएटिव कंज्यूमर्स को बिजली के पैसिव रिसीवर से एक्टिव मार्केट पार्टिसिपेंट्स में बदलने के लिए डिज़ाइन किया गया है। सिक्वोर, इंटरऑपरेबल डिजिटल प्रोटोकॉल का इस्तेमाल करके, पी2पी ट्रेडिंग प्लेसिफो को आपस में सीधे सरप्लस सोलर एनर्जी खरीदने और बेचने की इजाजत देगी, जिससे एक डीसेंट्रलाइज़्ड एनर्जी इकोसिस्टम बनेगा और घरों और छोटे बिजनेस के लिए मोनेटाइजेशन के नए मौके मिलेंगे।
